The LED assembly uses two die cast aluminum Mounting Clamp Grips (MCG) that swing out to tighten onto variable ceiling thicknesses ranging from 1/8" to 1-1/4" thick. Integrated rubber feet on each MCG provide a non-slip vibration resistant installation. The hidden MCG system is accessible from below ceiling by removing the snap-in Lens/Bezel Assembly with either the included suction cup or a screwdriver blade. Integrated Bar Hangers feature integral toothed nails, T-bar mounting slots with locking holes, Tabs for joint positioning, and extendibility from 14-3/4" to 26".
