Fixture Type:

347 to 277V Step Down Transformer

Description

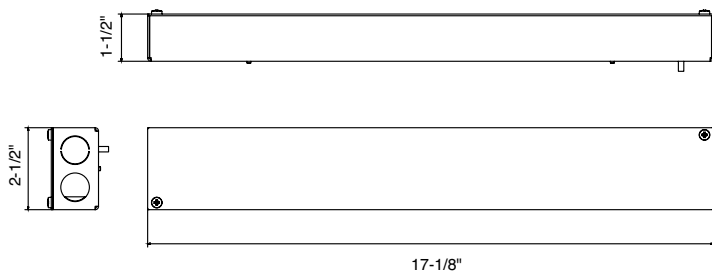

- Step down transformer designed specifically for lighting applications to step down 347V to 277V.
- For use with one or more electronic 277V LED Drivers
- Slim profile allows for retrofit applications with a minimum ceiling cutout diameter of 2-7/8" inches.
- Precision-wound coils ensure even heat dissipation and the highest electrical integrity.
- Steel Enclosure includes four 1/2" conduit knock outs
- UL listed for both US and Canada

Technical Specs

- 347Vrms Input, 60Hz Only, 277Vrms Full Load Output
- Recommended for loads with total system power less than 325VA
- For use on single phase
- 93% electrical efficiency
- Internal Auto Reset Thermal Protector Rated 100C
- Non-Isolated Autotransformer
- Sound Rating: A (20-24 decibels)
- Total weight: 5 lbs
- UL listed for US and Canada (UL FILE # E321989, GE LIGHTING)
- UL environmental Type 1 Enclosure
- 5 year warranty
- Box: Length = 17-1/8", Width = 2-1/2", Height = 1-1/2"
- Transformer: Length = 11-3/4", Width = 1-3/4", Height = 1-1/4"
